

# The 13<sup>th</sup> International Conference on Information Technology and Quantitative Management

July 8-11, 2026, NEOMA Business School - Rouen Campus, France

## AI and Business in Green and Digital Era

### BACKGROUND

The International Conference on Information Technology and Quantitative Management (ITQM), established by the International Academy of ITQM (IAITQM), is a global forum for exchanging research findings and case studies that bridge the latest information technology and quantitative management techniques. It explores how the use of information technology to improve quantitative management techniques and how the development of management tools can reshape the development of information technology. ITQM conferences focus on exploring the innovations, controversies and challenges facing our scientific community today. It's an opportunity for us to think about where we are today and where we are going. The First International Conference ITQM 2013 took place in Suzhou, China. The following ones were held at Moscow, Russia (ITQM 2014), Rio de Janeiro, Brazil (ITQM 2015), Asan, Korea (ITQM 2016), New Delhi, India (ITQM 2017), Omaha, USA (ITQM 2018), Granada, Spain (ITQM 2019), Chengdu, China (ITQM 2020&2021), Beijing, China (ITQM 2022, virtual mode), Oxford, UK (ITQM 2023), Bucharest, Romania (ITQM 2024), and New Jersey, USA (ITQM 2025). The theme of ITQM 2026 is “**AI and Business in Green and Digital Era**”. Prospective authors are invited to contribute high-quality papers to ITQM 2026.
